

# ROOFING, WATERPROOFING & BUILDING ENVELOPE SYSTEMS

## COMMERCIAL ROOFING WILL NEVER BE THE SAME!

We recently opened the first of its kind, dedicated distribution center just for commercial roofing contractors - something that has never been done before on a national scale. At Commercial Distribution Specialists we are all about providing Professional Commercial Roofers with the products they need when they need them and exceptional service from our dedicated, experienced, trained and educated inside and outside sales support staff. We will do whatever it takes to earn their business and help them maximize their revenue and profitability!

We've been listening to Professional Commercial Roofers and we are committed to providing them access to an in-stock inventory that will be unmatched in the commercial roofing industry.

## WE CONSIDER YOU PARTNERS IN THIS ENDEAVOR.

"We are excited to kick-off our national expansion into the tier one commercial roofing, waterproofing, and building envelope system market with a new standalone commercial division. We plan to build a national network of fully dedicated commercial branches with an unparalleled service offering, the deepest inventory, and the most technical salesforce. We especially thank our strategic supplier partners in supporting our new venture and their assistance on the implementation of the revolutionary CDS model in the marketplace." Dan Tinker, President and Chief Operating Officer of SRS Distribution

### **CDS is a full line Commercial distributor.**

100% of our inventory and warehouse space is dedicated to Commercial exterior building envelope products. Our fleet consists of the newest models of crane trucks and knucklebooms for efficient roof top delivery. We also offer tractor trailers for ground drops and the delivery of covered/secured jobsite van storage. All of our equipment is designated 100% to the Commercial contractor.

## LET'S EXPLORE THE MANY WAYS WE CAN HELP EACH OTHER

We're looking for ways to expand our inventory, keep current with industry/product trends and with your participation, provide training and educational seminars to our customers. We look forward to hearing from you and working together.
