Since 1960, when JELD-WEN began with one millwork plant, we’ve been dedicated to crafting windows and doors that enhance the beauty and functionality of your home. Today we continue that tradition with products that are durable and worry-free. It’s the result of innovation as a driving force in all that we do. It begins in the forests where we harvest our premium lumber. In addition to responsible reforestation practices, we reuse and recycle as much of our raw resources as possible. Innovation is also at the heart of our design and manufacturing process. With JELD-WEN, you can expect products that are more than just beautiful on the outside. The inner workings of our windows and doors are engineered to function flawlessly for years to come.

Architectural™ Collection

F I B E R G L A S S D O O R S

JELD-WEN’s Architectural™ Collection is a premium line of fiberglass doors and matching fiberglass components featuring an authentic woodgrain replication made possible by MasterGrain’s* unique NVD (nickel vapor deposition) technology. Each door begins with hand selecting the most beautiful pieces of wood to build a real wood door. A silicone casting then picks up the woodgrain, and with MasterGrain’s NVD technology, the finest details are transferred into a door mold, atom-by-atom. The result is a fiberglass door that replicates natural woodgrain characteristics and is virtually indistinguishable from real wood.

Cherry  Rustic Cherry  Fir  Knotty Alder  Mahogany  Oak

ARCHITECTURAL™ COLLECTION DOORS
The Architectural™ Collection Delivers a Complete Fiberglass System

The Architectural™ Door Collection is a complete fiberglass door system. Every piece needed for an entry door is included, all with the same finish. This perfect match features authentic woodgrain finishes. Enjoy the beauty of wood with the durability of fiberglass. An Architectural Collection door arrives ready to assemble and hang, making it easier and faster to install.
Paint & Stain. Imagination Welcome.

CHOOSE THE PERFECT FINISH AND LET US DO THE WORK.

Leave the finishing to us. Our precise, meticulous process ensures exceptional quality and saves you valuable time and energy.

Nothing beats a quality finish

Our process begins with a dust-free, rigorously inspected unfinished door followed by multi-coat paint or stain applications, baked on at every step. The result is a finish as durable as it is beautiful.

Save time. Let JELD-WEN do the work.

Finishing a door in the field can squander valuable time and energy. Let JELD-WEN do the heavy lifting. Simply choose the paint color or stain and we’ll take care of the rest.

On trend finish options that inspire

The possibilities are wide open with 19 contemporary paint colors and six rich stains at your fingertips. JELD-WEN has the right finish for your needs.

For more information on interior and exterior doors by JELD-WEN visit jeld-wen.com.

Actual colors may vary from sample version.
JELD-WEN’s Architecture™ Collection is a premium line of fiberglass doors and components featuring the most authentic woodgrain replication in the door industry. What makes this possible is a unique NVD (nickel vapor deposition) technology by MasterGrain™.

Each door begins with hand selecting the most beautiful pieces of wood to build a real wood door. A silicone casting picks up the woodgrain and using NVD we transfer the finest details into a door mold, atom-by-atom. This mold reproduces the natural characteristics of wood in fiberglass—making our doors virtually indistinguishable from real wood.
