Sealers and Topcoats

Ensure your artistry stays beautiful from day one. Westcoat sealers and topcoats are perfect for safeguarding decorative overlays and ideal for general concrete sealing and maintenance of everyday areas. The line includes low odor water-based options, fast dry options and ultra tough polyurethanes, polyureas and epoxies for heavy traffic. All sealers may be used with Westcoat Safe-Grip for a desired non-skid finish. Choose from satin or gloss finishes.

EC-11 Water-Based Epoxy
For interior application only, this is a premium two component, chemical resistant, epoxy coating with a long shelf life. It provides epoxy toughness, medium gloss and flexibility with the convenience of a water-based system.
- Low odor
- Nonyellowing
- Fast drying

EC-12 High Build Epoxy Clear Topcoat
For interior application only, this two component, 100% solids, high build, high viscosity, cyclo-aliphatic, chemical resistant clear topcoat is a highly versatile epoxy coating with superior clarity.
- High build
- Chemical resistant

EC-15/16 Polyurethane Topcoat
A two component, polyester, high solids, solvenated, polyurethane topcoat. The UV resistant, chemical resistant nature of this product will cause it to outperform most other types of sealers or topcoats when compared. Available in high and clear gloss (15) as well as satin finish (16).
- Impact and abrasion resistant
- Nonyellowing polyurethane
- UV resistant

EC-100X Polyurea Topcoat
EC-100X Polyurea Topcoat is designed to be used as a finish coat for all of the Westcoat Epoxy Systems. It provides a non-yellowing high gloss, high build finish with outstanding wear resistance. EC-100X provides a faster cure. EC 100X is a two component polyurea.
- UV resistant
- 100% solids
- High build

SC-42 Water-based Acrylic Sealer
As an easy to use acrylic with a natural look, this water-based, clear concrete sealer and glaze is a cost-effective option for sealing concrete and overlays.
- Semi-gloss finish
- Easy to use

SC-50/56 Water-based Polyurethane Sealer
These have components high solid water-based polyurethane sealers provide properties equal to that of traditional sealants with lower health and environmental concerns. Available in a gloss or satin version. Choose SC 50 for a high gloss finish or SC 56 for a flat finish.
- Impact and abrasion resistant
- Excellent adhesion
- UV resistant

SC-70 Acrylic Lacquer Sealer
This solvenated, fast drying, acrylic sealer, also known as Stone Glaze, offers high gloss, UV and stain resistance and is designed to create a glazed look.
- Easy to use and recoat
- Lacquer finish
- Fast drying
- UV resistant

SC-65/66 Water-based Polyurethane Sealer
These have components high solid water-based polyurethane sealers provide properties equal to that of traditional urethanes with fewer health and environmental concerns. Available in a gloss or satin version. Choose SC 65 for a high gloss finish or SC 66 for a satin finish.
- Impact and abrasion resistant
- Excellent adhesion
- UV resistant
Sealers and Topcoats

EC-21 High Build Epoxy Clear Topcoat
For exterior application only, this two component, 100% solids, high build, high voc, cyclo-aliphatic, chemical resistant epoxy is a highly versatile epoxy coating with superior clarity.
- High build
- Chemical resistant

EC-55/66 Polyurethane Topcoat
A two component, polyester, high solids, solvent borne, polyurethane topcoat. The UV resistant, chemical resistant properties of the product make it compatible with other types of sealers or topcoats when compared. Available in pigmented and clear gloss (95) as well as a satin finish (96).
- Impact and abrasion resistant
- Excellent adhesion
- UV resistant

EC-100X Polyurea Topcoat
EC-100X Polyurea Topcoat is designed to be used as a finish coat for all of the Westcoat Epoxy Systems. It provides a non-yellowing high gloss, high build finish with outstanding wear resistance. EC-100X provides a faster cure. EC-100X is a two component polyurea.
- UV resistant
- 100% solids

SC-42 Water-based Acrylic Sealer
As an easy to use acrylic with a natural look, this water-based, clear concrete sealer and glaze is a cost-effective option for sealing concrete and overlays.
- Semi-gloss finish
- Easy to use

SC-85/86 Water-based Polyurethane Sealer
These two component, high solids, water-based, polyurethane sealers provide properties equal to that of traditional urethanes with lower health and environmental concerns. Available in a gloss or satin finish. Choose SC-85 for a high gloss finish or SC-86 for a satin finish.
- Impact and abrasion resistant
- Excellent adhesion
- UV resistant

SC-78 Acrylic Lacquer Sealer
This solvenated, fast drying, acrylic sealer, also known as Stone Glaze, offers high gloss, UV and stain resistance and is designed to create a glazed look.
- Easy to use and recoat
- Lacquer finish
- Fast drying
- UV resistant
